

# STANFORD CLUB OF SINGAPORE

## *Dinner with Business School Professors*

Stanford Club members in Singapore spent an engaging and informative evening at the Stanford Club Dinner on August 3 with three professors from the Business School. Larissa Tiedens, Jeff Zwiebel and Chuck Bonini joined about 30 Club members and guests for dinner and a lively discussion.

After dinner and discussions at each table for the dinner, Associate Professor Larissa Tiedens of Organizational Behavior, Associate Professor Jeffrey Zwiebel of Finance & Economics and Emeritus Professor Charles Bonini, all gave short remarks on their respective domain areas followed by a Q&A session. From updates on Stanford to whether star athletes really do have 'hot hands' that result in streaks of top performance, the topics were wide and varied. After the formal Q&A ended and Professor Bonini made a formal goodbye, many of the participants found the topics just too interesting and stayed even longer for informal discussions with the Professors.

The Professors were in Singapore for the Stanford-NUS Executive Program, and the Club appreciates their taking time from their busy schedules to spend an evening with Club members.
